### **Election/Restrictions**

1. This application contains claims directed to the following patentably distinct species of the claimed invention:
  - a) Species I, e.g. claims 1-18: A balun and a transceiver front end circuit.
  - b) Species II, e.g. claims 19-20: A bulun
2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claims is finally held to be allowable. An argument that a claim is all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. 1.141. If claims are added after the selection, applicant must indicate which are readable upon the elected species. M.P.E.P. 809.02(a). Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103 of the other invention.

4. During a telephone conversation with Attorney George B. Leavell on 3/08/2005, a provisional election was made **without** traverse to prosecute the invention of Group I, **claims 1-18**. The attorney George B. Leavell agrees to cancel the claims 19-20.
